

# Custom Promotional Signs

Are you planning a promotional event or need exposure to make an impact - then let HyLyte help you get noticed!

We custom make and design promotional signage. We manufacture "U-Tube" and "Square Tube" stands, which are great for our popular single or double sided corflute 900mm x 600mm budget friendly temporary signs, vinyl cut or digitally printed.

Our fold-out double sided metal "A-framed" signs with convenient carry handle are excellent as a promotional aid for shop fronts, markets and any place with pedestrian or vehicle traffic. You position the sign to it's maximum exposure with the twist of a wrist!

You name it, we have it, or if we don't, will endeavor to help you find it!

What ever you need, let HyLyte help you!
