

NEW!

SITE-POST

Site-Post

At last! A high-visibility steel post especially designed to increase safety around building sites and roadways. The unique notching system makes erecting barrier meshes fast and economical.

The BIG difference

- **Site-Post** is highly visible.
- **Site-Post** has a unique notching system to make fastening barrier meshes, safety flags and safety tapes a breeze: save time and money.
- **Site-Post** has a long life, automotive baked enamel coating.
- **Site-Post** is 150cm long.
