Wheel Stops, Rubber

Wheel Stops are a Highly Visible parking helper, in contrasting black and yellow to make them stand out against all backgrounds. For use in the protection of walls, vehicles and other valuables in all parking situations. Helping protect your customers vehicles, your premises and helping prevent damage to pedestrian areas.

- Manufactured from 100% recycled tyres.
- Lightweight easy to handle and can be installed by one person with polyurethane or 35cm Rebar Spikes.
- Yellow reflectors for increased visibility.
- Approx 1/5th the weight of concrete.
- Resistant to UV, moisture, oil and extreme temperature variations.
- Flexible, allowing for conformity to contour to virtually any road surface.

Wheel Stops carry a one (1) year manufactures warranty when item has been determined to be defective. All other installation related problems are assumed to be fault of improper conditions or installer error.
